EH1500-SM1 STANDARD UNIT

KEY FEATURES:

- Compact
- Precision settings to suit application
- 99% separation efficiency depending on the material
- Protects other equipment in processing cycle e.g. shredders
- Low maintenance
- Low operational costs
- Low dust emission due to controlled and recirculated air flow

SUITABLE FOR:

- Fixed / static applications
- Construction and Demolition Waste (C&D)
- Commercial and Industrial Waste (C&I)
- Electronic and Electrical Waste (WEEE)
- Bottom Ash
- Refuse Derived Fuel (SRF / RDF)
- MRF Glass Cleaning

Whilst the core Ecohog Unit is standardised, each is custom tailored to accommodate specific process needs and requirements. Auxiliaries are also available as required.

HUNGRY FOR WASTE
